PERTH AMBOY, NEW JERSEY

June 1963

DEDICATION

▲ The Class of 1963 was deeply grieved by the passing, on November 1, 1962 after an extended period of illness, of a woman who served the Perth Amboy School System for 37 years.

▲ Serving as head of the high school Art Department, Adviser to the Paletteers, and Art Adviser to the "Halls of Ivy" she never failed to give her utmost. She was a constant source of inspiration to the students she taught, always remembering their individuality and striving to instill in them a strong appreciation for art.

▲ We, the Class of 1963, in recognition of all that she did for Perth Amboy High School and for the many students she taught, dedicate this yearbook to the memory of ANNE T. MASSOPUST.

ATTENDANCE. Life is dependent upon time. The attendance department strives to make the habit of punctuality an integral part of daily living. In addition to teaching us the value of this desirable habit, the attendance department arranges for tutoring and other aids if there is an extended absence. In effect, the precepts of this department are that consistency of effort benefits the pupil, the class, and society.

HOW ARE YOUR MARKS? Thomas Sottilaro has his records checked by an admissions officer from Rutgers.

ENGLISH. Being able to present our thoughts clearly and intelligently is a major factor for success in today's complex society. In our study of English we learn how to express ourselves meaningfully through the understanding of the various fields of literature and grammar. By reading we are able to more fully appreciate and understand the beauty of the words which English contains. Our diction and understanding of words is further helped by our study of vocabulary.

LANGUAGE. Mastery of another language has become quite important in recent years. A foundation may first be laid with Latin, or a student may begin directly to speak in French, German, or Spanish. Tapes in the language laboratory expose the students to the sounds of native voices, aiding him in grasping the language more effectively. Films and slides are also available for this purpose. An insight into the culture of our neighbors may be effective in promoting world peace.

SOCIAL STUDIES. The living story of History is taught to us not only by studying the past, but the future as well. We are taught to seek the facts, and draw logical conclusions from the history that is being unfolded before us. MATHEMATICS. As well as being a tool for study in advanced sciences, mathematics is necessary in business and ordinary activities. After learning basic concepts, we are taught to apply them to complex problems. The department has kept abreast of sweeping changes in mathematical theory by introducing Modern Math and various types of analyses into the curriculum.

HOUSEHOLD ARTS. Most of our paths will eventually lead to marriage. Preparation in domestic crafts is necessary for a successful home life. Once we perfect the mechanics and care of electrical and gas ranges and refrigerators, we can utilize these appliances to prepare the tasty, well-balanced meals so important in our busy times. MUSIC. One way that world-wide harmony can be expressed is through the field of music. Many barriers are overcome by using melodic conversations. A modern beat is provided by our swing band, while memories of favorite classics are brought to us by the band, orchestra, and choruses. During four years of high school, students have a chance to become well acquainted with musical comprehension and communication.

Through brush, chalk, and pencil, students of art have learned the secretive beauty of self-expression. New techniques and ideas are explored in water colors, pastels, oils, tempera, and pencil. SENIOR COUNCIL. The Senior Council was the nucleus around which our many memorable senior activities revolved. Under the able leadership of our class officers, the diligent work of the council members, and the devoted supervision of Miss Rae Goldstein, projects such as the "Costume Caper," the class trip, and the unforgettable senior prom were carried out. We were an initiative class, the first to combine with another to put on the highly successful senior-junior plays, "The King and I" and "Carousel," directed by Mr. Austin Gumbs. In retrospect the class of 1963 will cherish the memories of a profitable senior year which combined good times with invaluable experience.

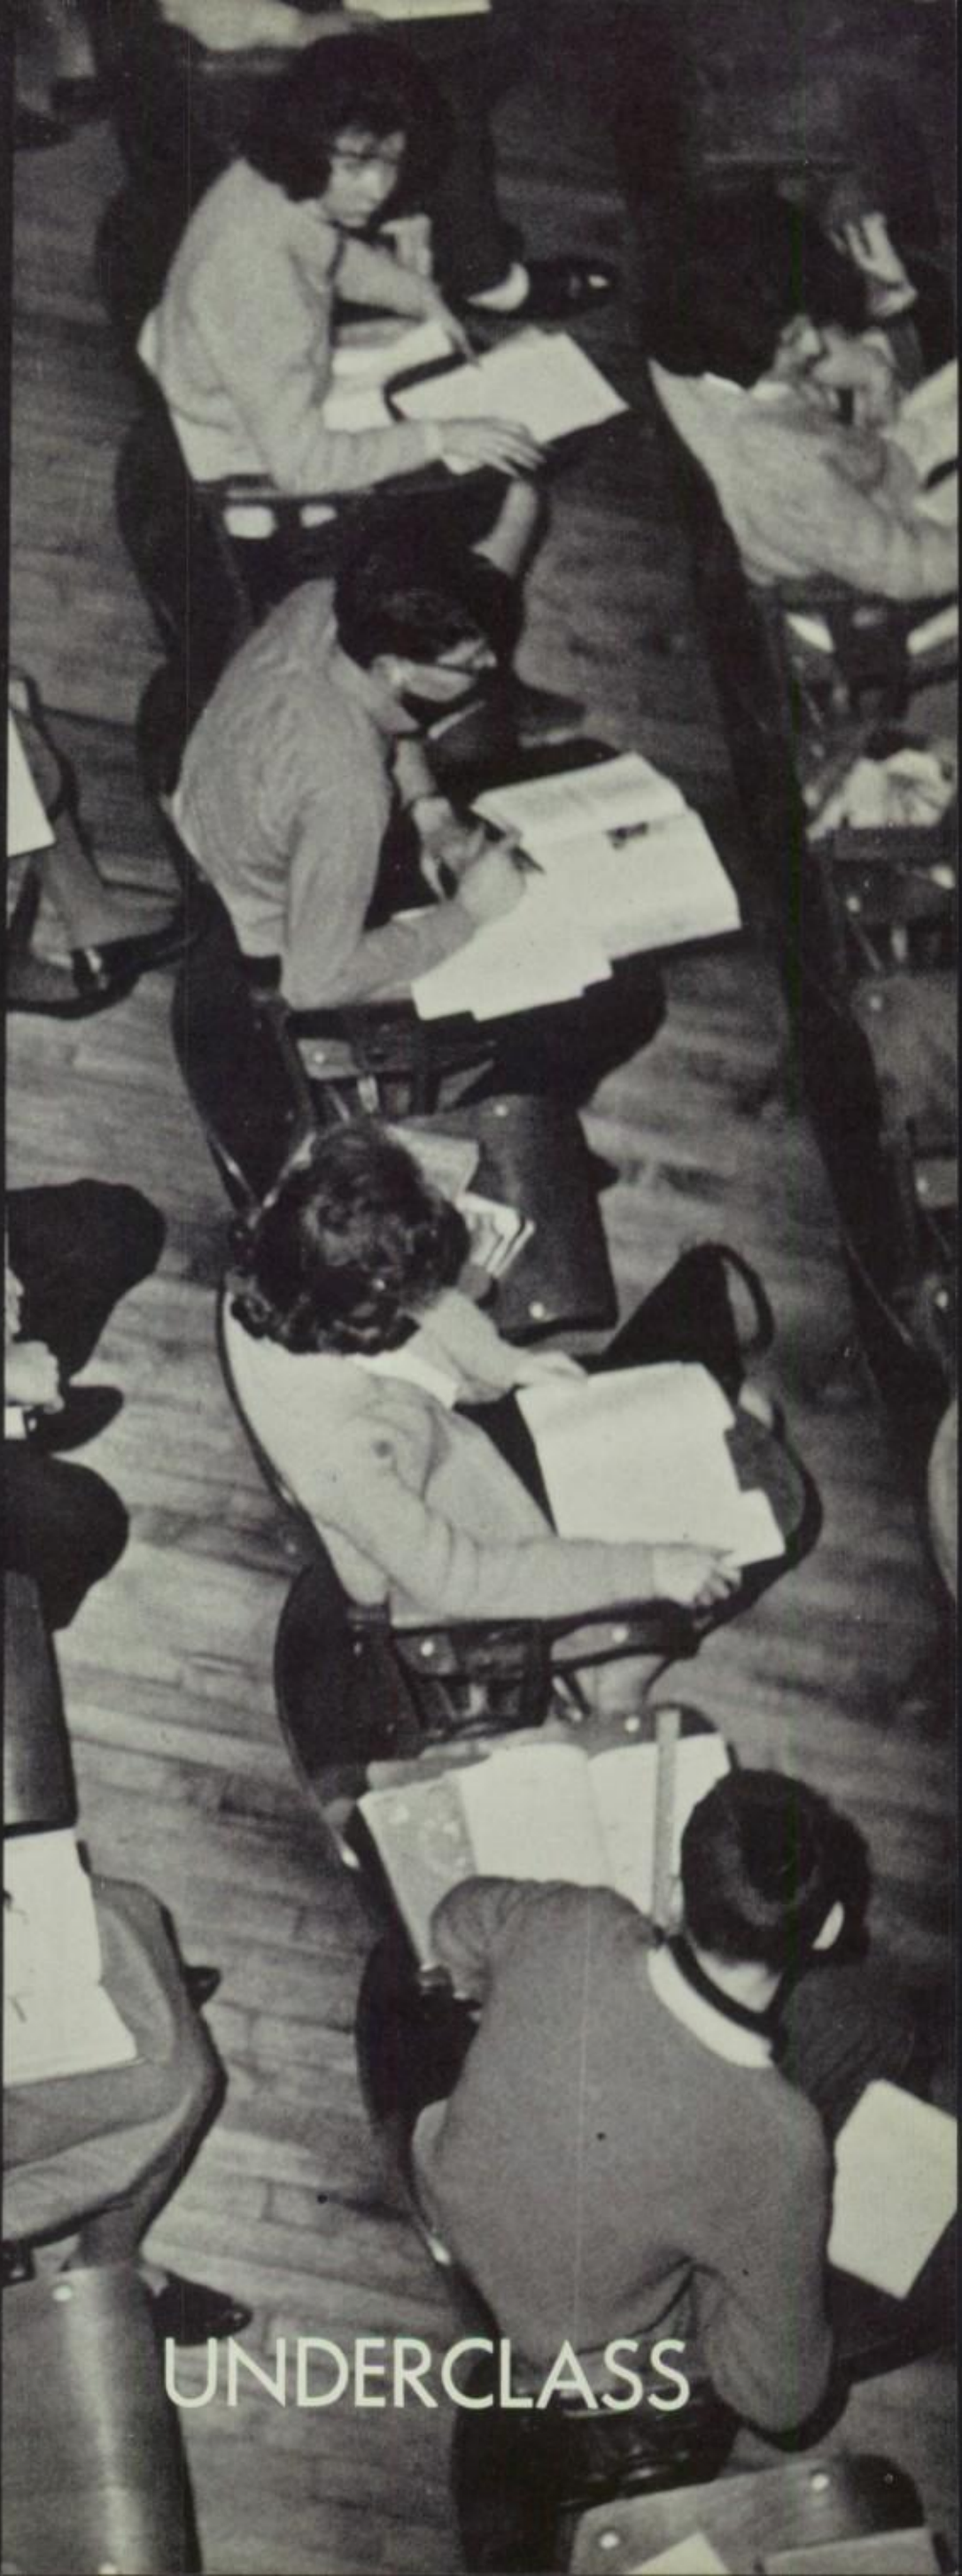
PROTOZOA



UNDERCLASS

Upon entering PAHS, freshmen approach an altogether new and different world. They now have clubs to suit their own varied interests, a new type of curriculum, and many more friends with which to enjoy the wide choice of school activities. Because this high school world is a new challenge, freshmen, although at first reluctant, volunteer their services to student activities with much pep. Helping with such school services promotes the development of their own individual personalities and introduces the frosh students to the responsibilities of later life.

"THIS I CAN'T BELIEVE!" sighs Timothy Dziechowski as he finds himself slightly overloaded with homework.

SEWING MADE EASY? Nancy Kroop painstakingly concocts a new addition for her wardrobe—a whatchamacallit

SOPHOMORES. Why do sophomores always seem to bubble over with enthusiasm? Perhaps it is because they have finally reached an established point in high school life and now really feel a true sense of belonging in the halls of PAHS. During their second year, students eagerly look forward to the day when they will become upperclassmen. While awaiting this event, sophomores very energetically participate in extra-curricular activities and volunteer for any school function which they can possibly fit into their busy schedules. The Class of 1965 will certainly be a successful one because of a certain thing—co-operation.

"GEE, I REALLY THINK THAT'S PLENTY," John Berecz groans, while he tries to back away from a few more boxes of "goodies".

COME, GET YOUR RED HOT PRETZELS! The Student Council pretzel sale seems to be quite successful with the help of salesgirls Carol Mucinski and Linda Ruszala and generous customers like Mary Ann Tympanik.

"HEADS I WIN, TAILS YOU LOSE" Tom Stepnowski and Bob Spector flip a coin for a date with Barbara Brixie.

CLASS OF 1965

"HEY EVERYBODY, LOOK AT ME!" shouts Mike Totin who is playing mountain climber at the waterfront.

"I DON'T QUITE UNDERSTAND," explains Alan Lewis to his expert tutor Arlene Banks.

IT TAKES TWO TO TANGO! Eleanor Rizzi and Russell Brown discover that dancing to classes is a lot better than fighting the crowds.

BUT WE'VE ONLY BEEN ON FOR FIVE HOURS! Debbie Sokolow and Ingrid Phillip monopolize their idle hours at the end of that long black cord.

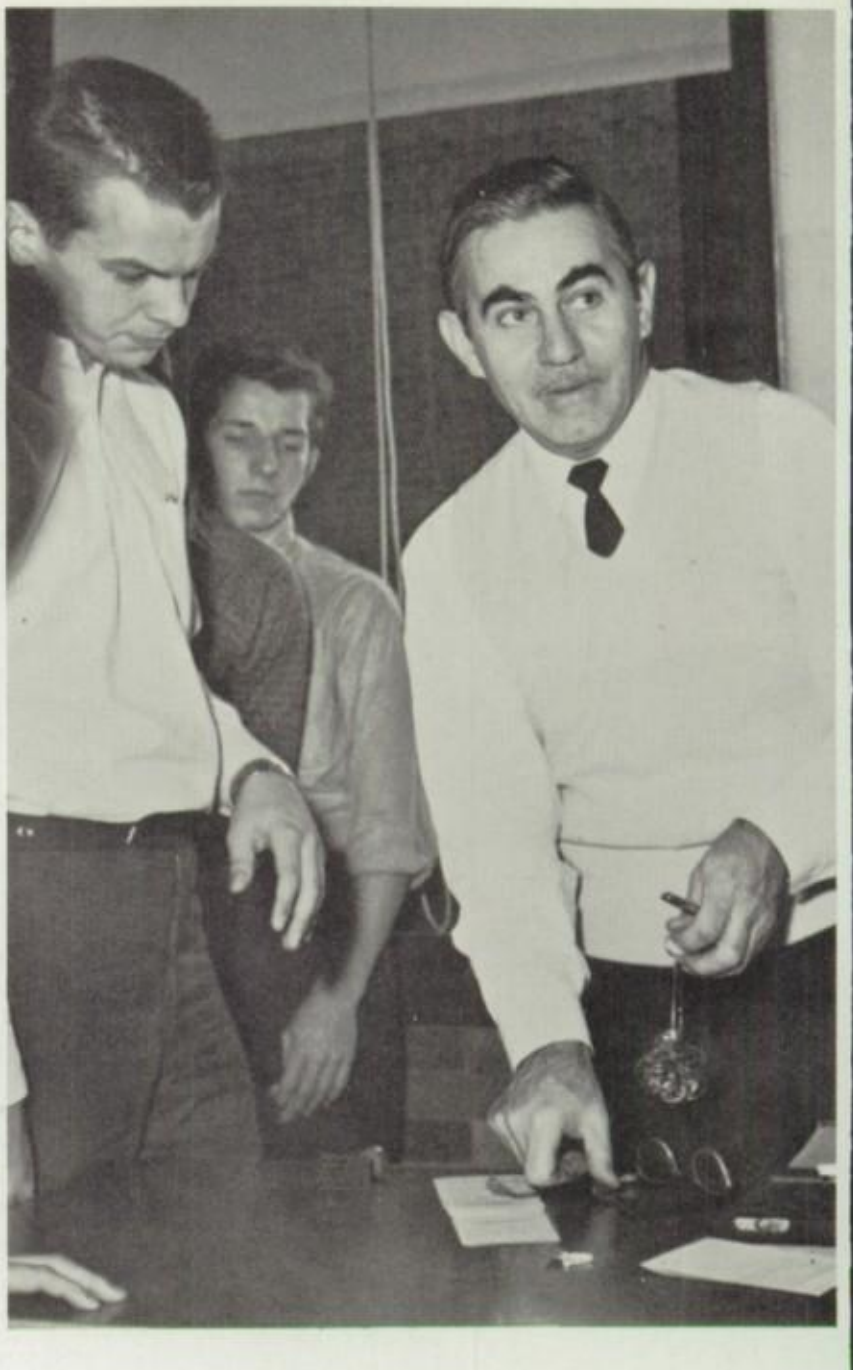
"THINK I CAN GET A BAND LETTER?" asks Pete Savino while playing a drum solo in the corridors.

COUNCIL OFFICERS . . . Carolyn Richardson, Richard Pucci, William Cradle and Eva Zaremba take a break while making plans for their mid-winter dance.

JUNIORS. The long-awaited arrival of the junior year brings with it many joys for students. The purchasing of class rings plays an important role in establishing the status of the class. In addition, a junior council works hard to be able to finance a prom. It did so this year by selling candy, sponsoring a dance, and by participating in the Junior-Senior play of "Carousel". All these things form a bond around the class and help it to work as a unit. Juniors, too, anticipate their forthcoming year—the senior year with all its hopes and expectations.



"WHAT SIZE DID YOU SAY?" asks jeweler Jack Rubin to prospective ring wearer Joe Mucinski.

"PULL!" exclaims Bernie Baranko to Susan Klegman, Barbara Sarisky, Judy Lopazanski, and Nancy Sarisky after they discovered themselves unable to crack the combination.

ANOTHER DIOR? Susie Vargo utilizes her artistic talent by designing her ideal wardrobe.

SUNBATHING IN JANUARY? Carrie Marks, Sharyn Greenstein, Joan Barron and Nancy Grondelski utilize cold winter days in order to get suntanned.

CLASS OF 1964

SMILE PRETTY! Veronica Kelly, Barbara Sarisky and Randi Neiner take a break after a trying day of rushing through the halls.

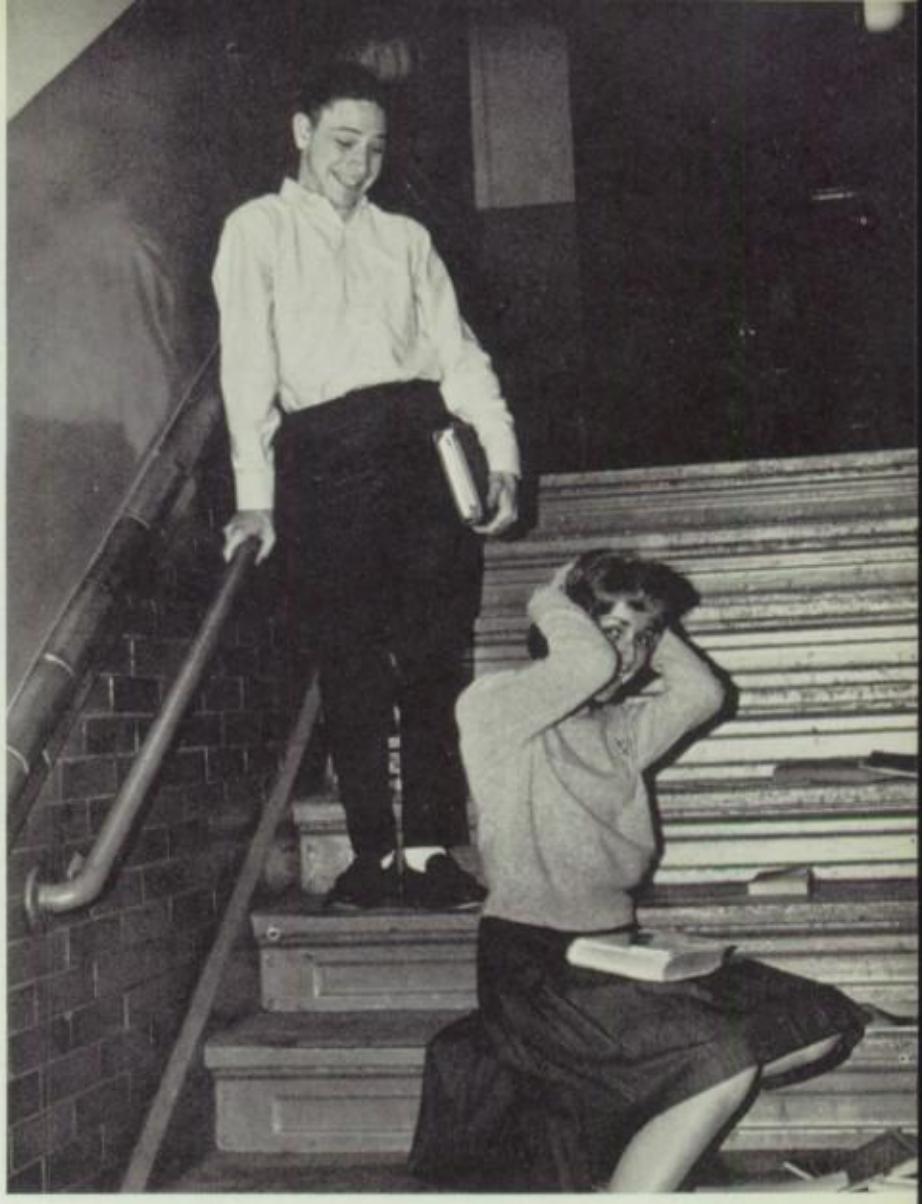
"HEY! DO YOU NEED HELP?" John Mazurek offers his loyal services to Barbara Choback in a school clean-up campaign.

HELP! I'VE JUST GOT TO GET OUT OF HERE. Betty Ann Lowe looks like she's having some difficulty getting off the third floor.

WE MIGHT AS WELL STAY THE NIGHT! Billy Cradle and Steve Kantor get set to tackle that lengthy homework assignment.

SING ALONG WITH MR. STOFEGA . . . Robert Bright sounds an "A" for Algebra while Mr. Stofega tries his hand at the electric organ.

HE WOULDN'T DARE! Marc Stess takes Jane Perlin by surprise.



HE DID! Marc grins gleefully as Jane looks horrified at the mess he caused.

CALLING DR. CASEY . . . Jill Scharer seems to be the victim of mad surgeons Linda Tallarom, Norma Kertes, Jane Sanders, Ellen Pazula, and Nancy Sarisky during half time at a basketball game.

Sound interesting? It is—for the many operators at New Jersey Bell who talk to folks from one end of the country to another, all in a day's work. And it's an important day's work—it puts you on speaking terms with the whole wide world!

That's one reason why so many girls like being telephone operators. Of course, they like the good starting pay and rapid advancement, too. And there are regular raises. Pleasant surroundings. And friendly people to work with.

Your school's Vocational Guidance Counselor can tell you all about an exciting career as an operator—or the many other interesting careers offered by the Telephone Company.
